"We produced another strong quarter in our title insurance business, despite the continued difficult operating environment," said Chairman William P. Foley, II. "Our industry-leading pre-tax title margin was 11.6%, including \$7.2 million in realized investment losses, and 12.2% before the impact of those realized losses. We again saw the strength in our commercial title business partially offset the ongoing weakness in the residential resale markets and we exceeded our targets in shared services cost reductions. Additionally, with the meaningful decline in mortgage rates beginning in August, we began to see a significant increase in our refinance open order volumes, as August total open orders per day increased nearly 30% over July, and September total open orders per day remained nearly equal with those elevated August levels. We expect to see the majority of the revenue and earnings benefit from these increased open order volumes in our fourth quarter operating results.

"In July, we announced the sale of our flood insurance business for \$210 million which will generate an estimated \$154 million pre-tax gain. That flood business has been the nation's largest flood insurance provider and a very profitable and consistent business for FNF for nearly ten years. We feel this transaction is a great opportunity to realize the value we have created and redeploy the capital into other uses that can continue to create increased value for our shareholders. We are awaiting final regulatory approvals and expect to close that sale in the next several weeks. The flood business is now shown as a discontinued operation in our financial statements.

"Our personal lines business suffered a pre-tax loss of \$14 million due to claims relating to significant summer storms, most notably Hurricane Irene, versus a \$1 million pre-tax loss in the prior year. The personal lines business was a \$9 million, or \$0.04 per share, drag on our net earnings for the quarter.

"Finally, in August, we issued \$300 million of seven-year, 4.25% convertible senior notes. This issuance allowed us to repay our maturing senior notes and continued our strategy of enhancing our longer-term liquidity profile, conservatively managing our balance sheet and liquidity position during uncertain times and maximizing holding company flexibility. Concurrent with the offering, we used \$75 million of the proceeds to repurchase approximately 4.6 million shares of our common stock."

Forward-Looking Statements

This press release contains forward-looking statements that involve a number of risks and uncertainties. Statements that are not historical facts, including statements regarding our expectations, hopes, intentions or strategies regarding the future are forward-looking statements. Forward-looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. Because such statements are based on expectations as to future financial and operating results and are not statements of fact, actual results may differ materially from those projected. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. The risks and uncertainties which forward-looking statements are subject to include, but are not limited to: changes in general economic, business and political conditions, including changes in the financial markets; weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding or a weak U. S. economy; our potential inability to find suitable acquisition candidates, acquisitions in lines of business that will not necessarily be limited to our traditional areas of focus, or difficulties in integrating acquisitions; our dependence on distributions from our title insurance underwriters as a main source of cash flow; significant competition that our operating subsidiaries face; compliance with extensive government regulation of our operating subsidiaries; and other risks detailed in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of the Company's Form 10-K and other filings with the Securities and Exchange Commission.
