"The fourth quarter was a solid finish to a strong year for our title business, as we generated adjusted pre-tax title earnings of \$258 million and a 14.4% adjusted pre-tax title margin," said Chairman William P. Foley, II. "For the full-year 2018, we generated adjusted pre-tax title earnings of nearly \$1.1 billion and an adjusted pre-tax title margin of 14.8%. Additionally, fourth quarter total commercial revenue of \$324 million was a company record, as was full-year 2018 total commercial revenue of \$1.1 billion. We expect another strong performance from our commercial operations in 2019. We did experience some softness in the residential purchase market in the fourth quarter, as closed purchase orders declined by 6% versus the prior year. In response to that slowdown in the purchase market, we reduced staffing in our field operations by approximately 564 positions, or 5%, during the fourth quarter. As we enter 2019, we are optimistic that the strong economy, relatively stable mortgage rates, potentially slower home price appreciation and the possibility of increased residential purchase market that we saw for much of 2018.

"We continue to work through the regulatory process for the Stewart Information Services acquisition and are engaged in the Second Request related to the FTC's HSR regulatory review of the transaction. Unfortunately, the FTC informed us that no work related to the regulatory review occurred during the recent roughly month-long government shutdown. Also, on January 31, 2019, the New York State Department of Financial Services provided written notice of its disapproval of FNF's application to acquire control of Stewart Title Insurance Company, a New York domiciled title insurance underwriter that is licensed only in the State of New York. We are evaluating the appropriate course of action, which may include a discussion with the New York State Department of Financial Services to better understand its concerns and respond to the letter. We continue to believe the Stewart acquisition will create meaningful long-term value for our shareholders."

Reconciliations of these non-GAAP measures to related GAAP measures are provided below.
