"The second quarter was successful on a number of fronts," said Chairman William P. Foley, II. "First, we achieved a significant increase in revenue and earnings in the title business as we began to close a meaningful number of the orders we opened in the first quarter and early second quarter, producing a 9.2% pre-tax margin for the full quarter. Additionally, we exceeded a 10% pre-tax title margin for the month of June."

"We effectively completed the integration of Lawyers and Commonwealth during the second quarter, generating an additional \$32 million in cost synergies, in addition to the \$231 million in cost synergies previously realized, for a total cost reduction of \$263 million. These underwriters are now fully integrated into the FNF family and we look forward to their continued significant contribution to our market-leading title insurance business in the future."

"In April we were successful in issuing 18.2 million shares of our common stock for approximately \$331 million in proceeds to further strengthen our balance sheet. The proceeds were primarily used to reduce the outstanding balance on our credit facility and to repurchase some of our existing public debt, resulting in a 22% debt to capital ratio at the end of the second quarter versus our credit facility limit of 35%."

"Overall, the title insurance market has improved considerably in the first half of 2009, albeit with some volatility, as the significant increase in open order volumes slowed down late in the second quarter as mortgage rates increased. Order counts in July have been consistent with the levels we experienced for most of the month of June and we believe we are in a position to continue to generate solid profitability in today's market environment."

Fidelity National Financial, Inc. (NYSE:FNF), is a leading provider of title insurance, mortgage services, specialty insurance, claims management services and information services.

FNF is the nation's largest title insurance company through its title insurance underwriters — Fidelity National Title, Chicago Title, Commonwealth Land Title, Lawyers Title, Ticor Title, Security Union Title and Alamo Title — that collectively issue more title insurance policies than any other title company in the United States. FNF also provides flood insurance, personal lines insurance and home warranty insurance through its specialty insurance business. FNF also is a leading provider of outsourced claims management services to large corporate and public sector entities through its minority-owned subsidiary, Sedgwick CMS. FNF is also a leading information services company in the human resource, retail and transportation markets through another minorityowned subsidiary, Ceridian Corporation. More information about FNF can be found at www.fnf.com.

This press release contains forward-looking statements that involve a number of risks and uncertainties. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements are based on management's beliefs, as well as assumptions made by, and information currently available to, management. Because such statements are based on expectations as to future economic performance and are not statements of fact, actual results may differ materially from those projected. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise. The risks and uncertainties which forward-looking statements are subject to include, but are not limited to: the possibility that the acquisition of Commonwealth Land Title, Lawyers Title and United Capital Title will have unforeseen negative effects, including if those companies have undisclosed liabilities or if we are not successful in retaining key producers; changes in general economic, business and political conditions, including changes in the financial markets; weakness or adverse changes in the level of real estate activity, which may be caused by, among other things, high or increasing interest rates, a limited supply of mortgage funding or a weak U. S. economy; our potential inability to find suitable acquisition candidates, acquisitions in lines of business that will not necessarily be limited

to our traditional areas of focus, or difficulties in integrating acquisitions; our dependence on operating subsidiaries as a source of cash flow; significant competition that our operating subsidiaries face; compliance with extensive government regulation of our operating subsidiaries; and other risks detailed in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of the Company's Form 10-K and other filings with the Securities and Exchange Commission.
